

7-23-Café Food Service Order System Output Samples

This document demonstrates the assign_main.exe display on Windows Powershell.

Each screenshot is provided a short explanation.

Welcome screen: where new user start order

A screenshot of a terminal window with a dark background. The title bar at the top shows standard window controls (minimize, maximize, close) and a small icon on the left. The main area of the terminal displays the text "Personalize your Pick-Up Code (e.g.<oh my god>)" in a light-colored font, followed by a vertical bar indicating the current cursor position. Below this text, there is a horizontal line representing the input field where a user can enter their unique pick-up code. The rest of the terminal area is empty.

OIS Personalization: enter unique pick up code
